

QUENCH

DREAMS
(WHITE LABEL)

Quench return with this underground beller: a pulsating drumloop, ominous synth riffs and those bells. Church bells in full glory merged with powerful lines that keep this storming right till the end. Quench also supply a mix without the bells, but it don't stop there. Crunch have also been let loose on this package; delivering a bouncy number (trainspotters will no doubt spot the very discreetly hidden sample) with a new arrangement with enough of a difference to have you tossing coins for which mix to play. Mine landed with a crunch.
